26 May 1981

MEMORANDUM FOR THE RECORD

SUBJECT: OMB Draft CA Infrastructure Paper (S)

1. On 26 May 1981 Keith Hall, OMB CIA Budget Examiner, was given our preliminary comments on his draft paper in a secure telephone conversation. Mr. Hall seemed to accept them without rebuttal. Mr. Hall appreciated our comment on the numbers as well as the text, but commented that he was being asked to expand the issues paper with additional details, and asked if it would be possible to provide him with the details of the approved Political Action [redacted] figures. I indicated that I did not foresee any problem, particularly since we would be providing the IC Staff Book to him in approximately two weeks but would check and be back to him. (S)

2. While recognizing that an expansion of the issues paper might possibly make our comments moot, nevertheless, we melded the comments of EPDS, CA Staff, and [redacted] and recommended the following changes in the text:
